

A Novel Box Oven

contributed by Alison Whitehead

Equipment:

7 large (oven size) baking trays

Clamps (2 doz. metal paper clamps)

4 softdrink/soup cans (filled with rocks to weight them)

Pie Plate

Charcoal briquettes/lighter

1 rock for weight

I

Food:

Biscuit/Cookie Dough

Butter

Instructions:

Assemble the oven by clamping 6 of the baking trays together.

Leave the bottom open.

Pre-heat the charcoal on the pie plate.

Prepare the biscuit dough.

Place the remaining baking tray on the ground on a fireproof surface.

Set up the cans in a square and place the baking tray over the cans.

When the coals are ready, carefully place the pie plate and coals under the baking tray.

Always make sure you start a second batch of coals about 10-15 minutes after the first batch in case you need more later.
